

<u>ST696</u>

OPTO-ISOLATOR

USER INFORMATION

(ST541041-001)

INSTALLATION

Stack Limited, Wedgwood Road, Bicester, OX26 4UL, England. Tel. (01869) 240404 Fax (01869) 245500 The ST696 opto-isolator is designed to interface an ignition system to a Stack tachometer or data logging system. It should be used in cases when the output of the ignition system is not compatable with the input in to the Stack system.

CONNECTION

Input Connections

The connection to the ignition system depends upon the ignition system itself. Here are a few examples.

MSD Ignition

MotorPlat Connections

Output Connections

Standard Connection:
